

**Why build a  
PC with Isaac  
Howie?**

When you want a new PC, you want quality.

A new PC can be a big investment. Or it can be a small one. Whatever the cost, Isaac Howie can save you money.

Right: A Fractal Design Meshify C build. Functional and good-looking.

When you want a new PC, you want speed.

Just because a build looks amazing doesn't mean it performs poorly. In fact, expensive, good-looking parts often provide higher quality and better performance, to last a long time without performance deterioration.

Left: An amazing-looking build that is well beyond my power to create.  
Cost: \$5500 CAD.

# When you want a new PC, you want your money's worth.

When building with Isaac, it can be assured that you are paying for countless hours of research and hardware assembly.

Isaac Howie promises satisfying results, or a solid state drive (\$100 value) **for free**. Isaac Howie offers assembly services, wherein you order the parts and Isaac assembles them, and prebuilding services, wherein he buys the parts and assembles in-house, and then delivers the PC and sets it up at your house. For the utmost in convenience, choose Isaac Howie.

# When you want a PC, Isaac Howie is the right choice for you.

No matter the budget, the intended usage, the colour scheme\* or the desk, Isaac Howie has got you covered.

With over 157 weeks in the PC industry, Isaac Howie has the experience, the knowledge, and the flexibility to make a PC to perfectly suit you.

# Why do I want a new PC?

New PCs with the latest components feature major security fixes, and less potential for component failure, than older parts.

Isaac Howie also provides 1 year of unlimited tech support via e-mail. We are always pleased to help clients, and hope that clients are satisfied with the results of their order.

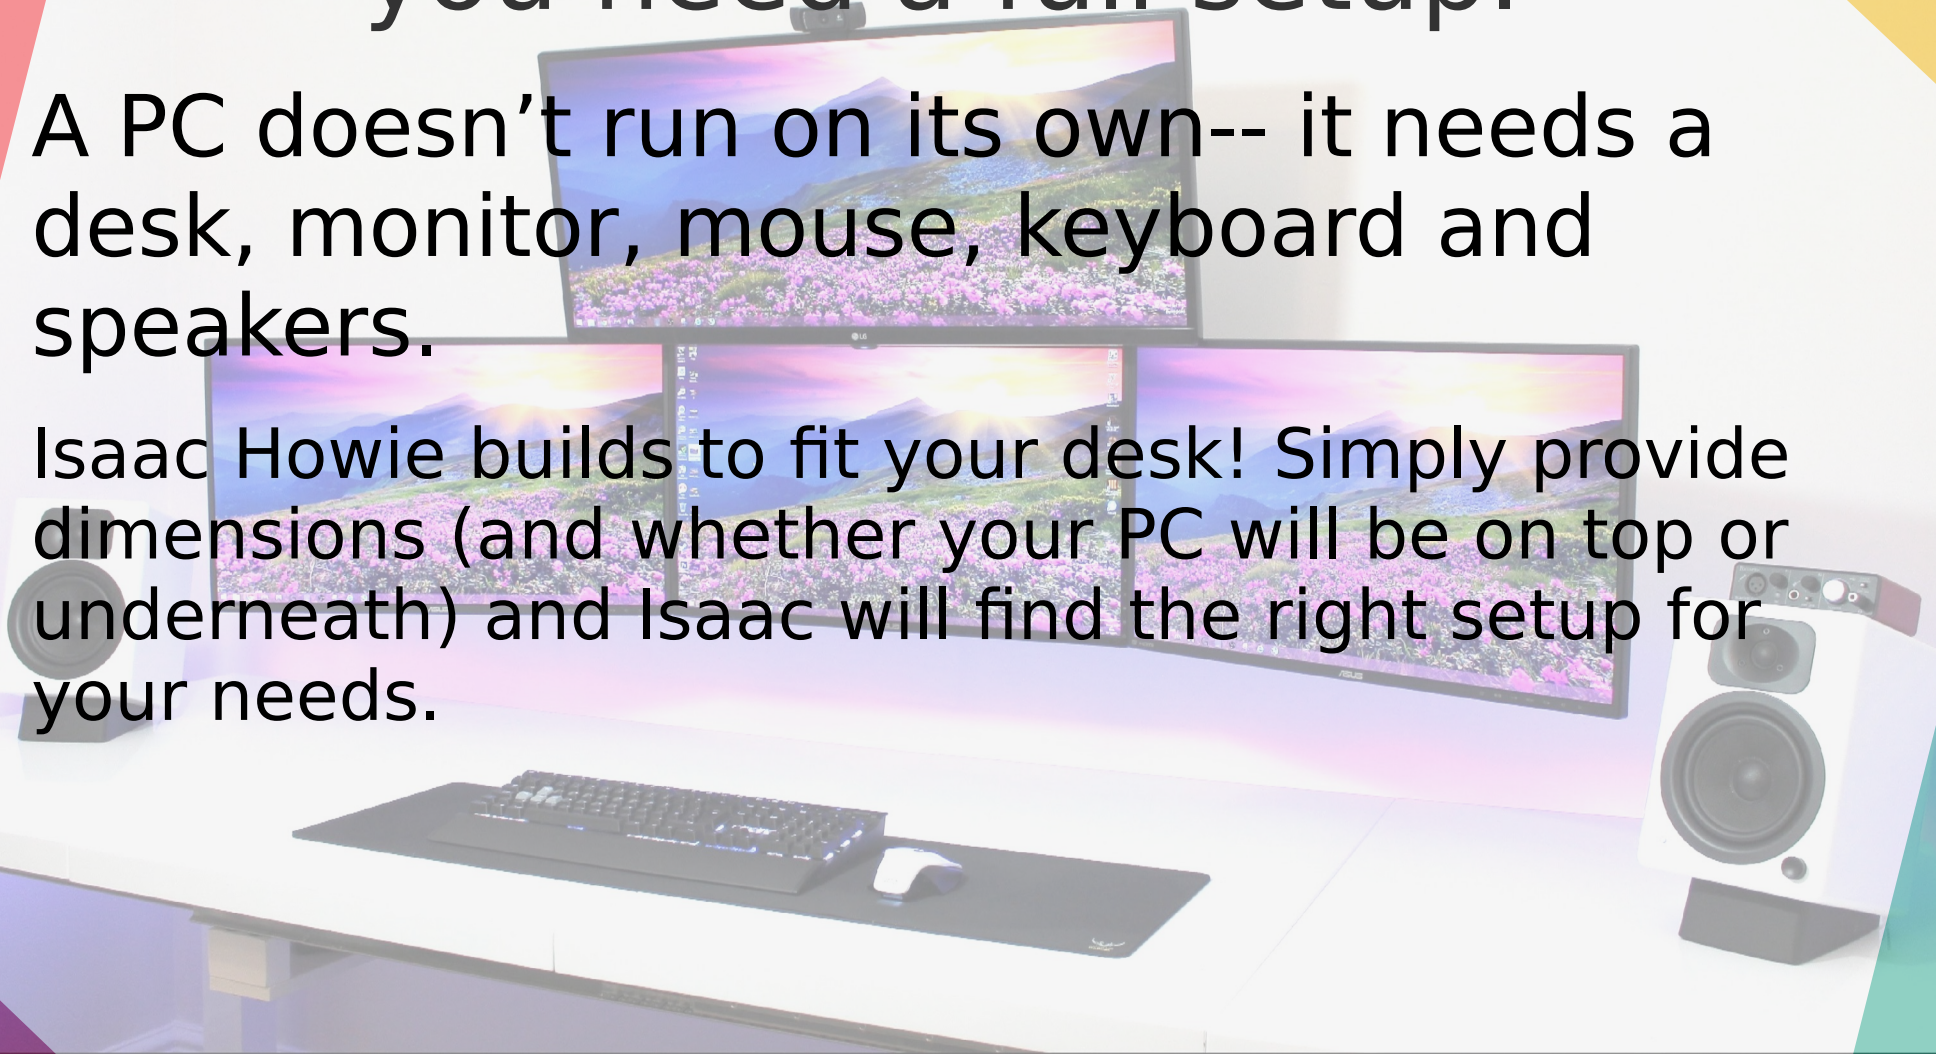

# When you want a PC, chances are you need a full setup.

A PC doesn't run on its own-- it needs a desk, monitor, mouse, keyboard and speakers.

Isaac Howie builds to fit your desk! Simply provide dimensions (and whether your PC will be on top or underneath) and Isaac will find the right setup for your needs.

# How do I order a new PC?

You need to know three things when building with Isaac:

- What is your intended usage (gaming, internet browsing, heavy rendering, all three, etc.)
- What colour scheme do you want (black, black and red, blue and white and green, black full of lit-up seizure-inducing RGB lights, etc.)
- What is your budget (\$250+ (less for pre-owned parts))

It's that simple! We guarantee satisfaction or a \$100 SSD for free!

Here's what customers have to say!

“Outstanding service. Isaac Howie knew exactly what parts I needed, and assembled them effortlessly.” -Zack H.

“I went to see his computer lab, and boy was it legit. Will build with Isaac next time.” -A.H.

“Great quality build. 10/10” -Zack's computer
